

QUALSTAR

TeraLoader™ LTO

TeraLoader delivers the benefits of Qualstar's *Simply Reliable* Automated Tape Library design in an easy-to-use, easy-to-install autoloader solution for your data protection requirements. The TeraLoader uses the latest LTO 2 Ultrium tape drive technology to deliver 3.2 terabytes of native storage in a flexible 5U rackmount or desktop package.

Using advanced, integrated data compression, data storage capacity surpasses 6.4 terabytes, while data transfer rates exceed 250 gigabytes per hour. The data rate matching feature provides optimum data throughput across a wide range of system performance levels.

TeraLoader's *Simply Reliable* design has been proven over thousands of units installed worldwide. TeraLoader is backed by a Three Year Advance Replacement Warranty and supported 24/7 by free Qualstar technical support.

TeraLoader™ LTO

ULTRIUM LTO 2

*Simply Reliable Tape Autoloaders
Featuring Ultrium LTO 2 Technology*

SIMPLE OPERATION

An intuitive menu-driven control system provides comprehensive installation, configuration and operational information via the front panel LCD display. Critical operating functions are automatically monitored and audible and visual signals notify users of conditions requiring immediate action.

SIMPLE TAPE MANAGEMENT

Tapes are housed in convenient removable magazines that simply snap in and out of the TeraLoader. Removing and organizing tapes for offsite storage has never been easier. Barcode scanning is an option.

SIMPLE SYSTEM MANAGEMENT WITH Q-LINK

Every TeraLoader comes with Q-Link, Qualstar's unique browser-based remote library manager. Q-Link enables administrators to configure, monitor and manage a TeraLoader from across the room, or across the world over the Internet. All of the information, functions and controls built into the TeraLoader's powerful menu system are replicated remotely by Q-Link! With Q-Link, administrators can deploy and manage multiple TeraLoaders from one central location, providing true distributed data protection without increasing cost. Even firmware updates can be performed remotely.

VERSATILITY

- Ultra2 LVD SCSI interface
- Rackmount slides included
- Supported by all major software application packages

PHYSICAL SPECIFICATIONS inches (cm)

Desktop / Rackmount:
5U: 8.75" h x 19" w x 30" d
(22.2 x 48.3 x 78.7) behind front rail
Weight: 73 lbs. (33 kg)

ENGINEERED FOR RELIABILITY

- All brushless motors
- Self-calibrating all-digital servo control system
- Over 2,000,000 MEBF

ELECTRICAL

100 - 240 VAC; 50 - 60 Hz;
105 watts, peak
